20/20.20	<b>Creativity</b> - We will be an organisation that encourages creativity, expects co-operation between services and supports the development of new ways of working.	Flexible working; formal and informal partnership work; external funding; new projects and service strands e.g. EU Resettlement; 3D printing

## New financial restrictions

In 2019-20 the Library is managing a standstill budget and plans to maintain all existing services where they contribute to our aims and outcome targets. Newer services such as 'STEM' (science, technology, engineering and mathematics) projects will be developed within existing resources. A project to refurbish the old library and bring most functions under one roof will be in the Council's Asset Strategy for decision in 2019. If this goes ahead it will mean Old Library staff and functions temporarily moving to Montfield. This will put pressure on resources for a time and may delay other projects. Ultimately the buildings improvement will bring benefits for customers and allow staff to work much more efficiently.

## About us

This Service is led by an Executive Manager who is line managed by the Director of Children’s Services.

Within the Library service there are various roles including librarians, systems staff, mobile library staff, admin/reception, school library assistants, senior library assistants and library assistants. Partnership work, both formal and informal is extremely important in delivering our services, so we work with many local organisations and volunteers.

We are an integrated public and school library service. Some staff work in both areas, and most school libraries also function as public libraries to some extent. The calculation for staffing allocated to public and school services takes account of this. All Shetland library stock is shared between school and public branches in an online library management system, so is available to customers throughout Shetland.

The Library has around 29 staff – full time, part time and relief - who serve our main public library, mobile library, seven school libraries, outreach and online services.

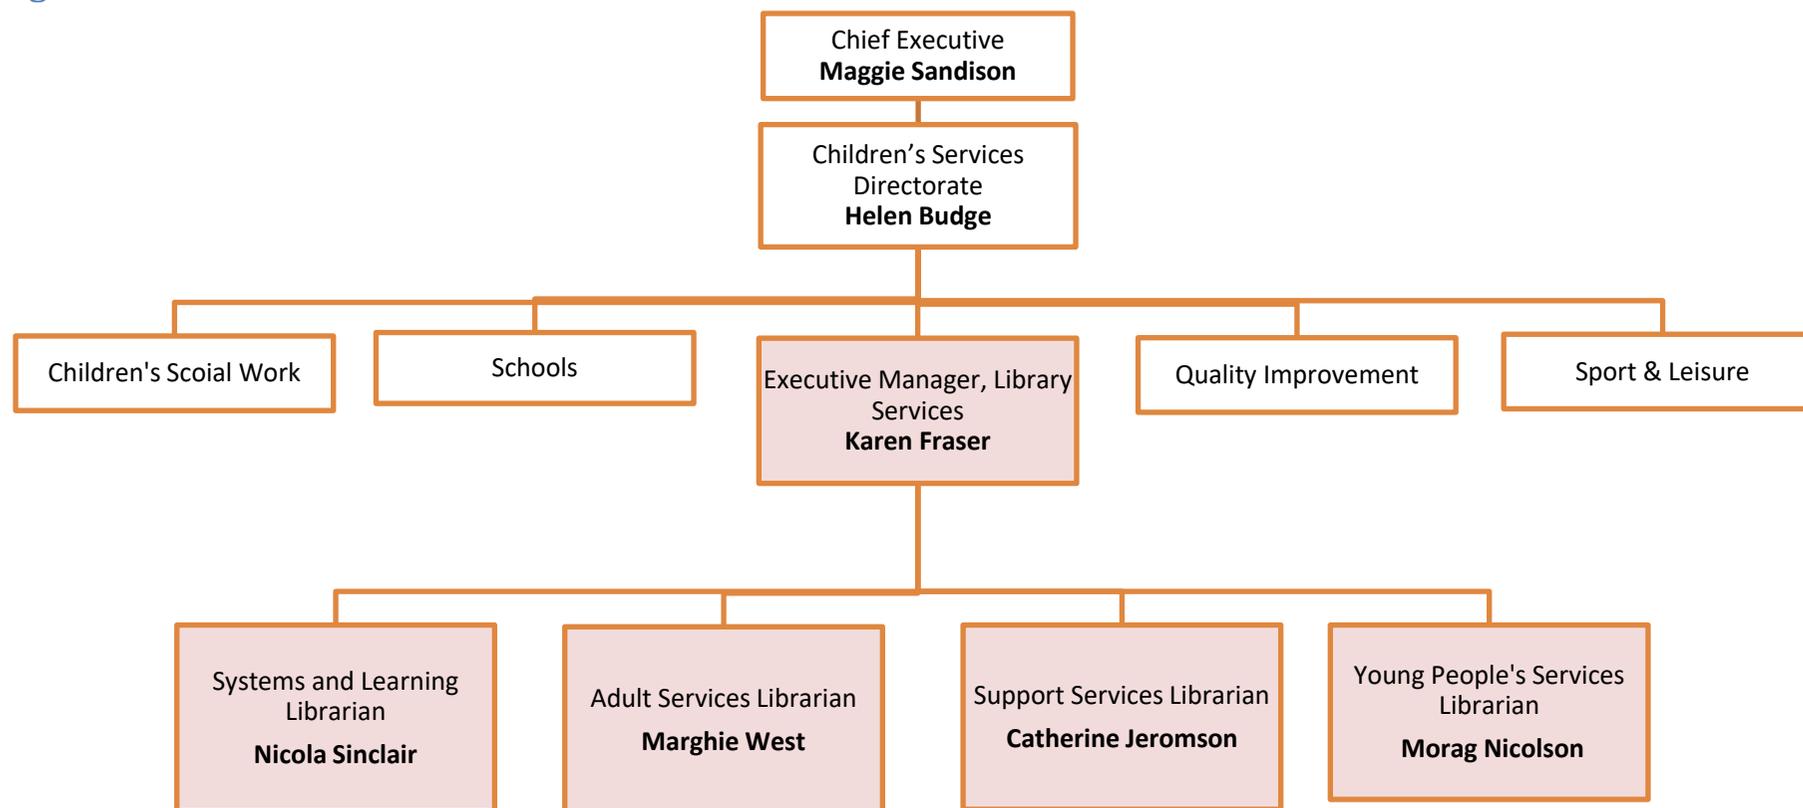

Our strategic aims are tabled here beside the corresponding evaluation standards and assessment tools we use.

## Organisational Chart

The Library does not have any managers at Team Leader level; instead four librarians at lower grades have line management roles as well as professional responsibility for areas of work. All library managers cover frontline service duties at times.
